

**Real Parts. Really Fast.™**

### **Finishing Operatives**

**£8.34 per hour (including shift allowance) – Double Days**

**£9.42 per hour (including shift allowance) - Nights**

#### **The Company**

**At Proto Labs**, we're not only one of the fastest growing manufacturing companies in the UK, we're also the fastest in the world at what we do — so being extraordinary is a way of life. If you are looking for an extraordinary career opportunity, you've come to the right place as we are looking for additional people to join our team.

Proto Labs is the world's fastest source for custom prototype and low- to mid-volume parts. With our Additive Manufacturing, Firstcut and Protomold services, our speed and versatility lets you take your parts from the very early stages of prototyping all the way up to short-run production of 10,000+ parts — all with one technology-driven, quick-turn company.

#### **The Role**

The purpose of this role is to prepare plastic components in accordance with customer requirements using hand and power tools such as, but not limited to, craft knives, diagonal-cutting pliers, band saws, grinders, drills and sanders. You will inspect injection moulded parts and ensure they match the quality standards set by the customer and report any non conforming parts to the relevant people and you will then pack them ready for dispatch.

Two Rotating shifts – 6am to 2pm and 2pm to 10pm, Monday to Friday

Night shifts – Sunday 9.30pm to 6am and Monday to Thursday 10pm to 6am.

#### **The Candidate**

The role will appeal to an individual capable of working in a pressurised environment. You will have the initiative to approach challenges with enthusiasm and the ability to react to rapid changes in prioritisation whilst maintaining a clear focus on the company objectives. Exceptional time management, communication skills and attention to detail are a must along with you must be computer literate.

#### **Benefits**

- Company bonus scheme
- Company pension scheme
- Childcare vouchers
- Excellent working environment
