

**2 x Maintenance Engineer /
Mechanical and Electrical Engineer
Day Shift
£Competitive**

Reporting to

Maintenance Supervisor /Facilities Manager

The Company

At Protolabs, we're not only one of the fastest growing manufacturing companies in the UK, we're also the fastest in the world at what we do — so being extraordinary is a way of life. If you are looking for an extraordinary career opportunity, you've come to the right place as we are looking for additional people to join our team.

Protolabs is the world's fastest source for custom prototype and low- to mid-volume parts. With our 3D Printing, CNC Machining and Injection Moulding services, our speed and versatility lets you take your parts from the very early stages of prototyping all the way up to short-run production of 10,000+ parts — all with one technology-driven, quick-turn company.

The Role

We are seeking 2 multi skilled Mechanical and Electrical Maintenance Engineers to join our team. You will be responsible for Day to Day Projects supporting continuous and process improvements and supporting when needed the preventative and reactive maintenance for a variety of machines from CNC and injection moulding machines and for the general upkeep of the building. Ideally you will have previous experience in working with injection moulding machines or hydraulics and CNC machines and you must have a 17th Edition Wiring Regulation qualification.

You will be working days, 8.30am to 5pm Monday to Friday.

The Candidate

The role will appeal to an individual capable of working in a fast paced environment. You will have the initiative to approach challenges with enthusiasm and the ability to react to rapid changes in prioritisation whilst maintaining a clear focus on the company objectives. You will be computer literate and have exceptional time management, communication and problems solving skills are a must.

Benefits include a company bonus scheme and company pension scheme

To apply please send your CV to recruitment@protolabs.co.uk

Successful applicants will be contacted 6 weeks after submitting their application. Due to the large amount of applicants, we will only contact successful applicants to go through to the next stage.
