

Real Parts. Really Fast.™

Tool Assembler / Disassembler **£8.51 per hour (Including Shift Allowance)**

Reporting to:

Mould Making Manager

The Company

At Proto Labs, we're not only one of the fastest growing manufacturing companies in the UK, we're also the fastest in the world at what we do — so being extraordinary is a way of life. If you are looking for an extraordinary career opportunity, you've come to the right place as we are looking for additional people to join our team.

Proto Labs is the world's fastest source for custom prototype and low- to mid-volume parts. With our 3D Printing, CNC Machining and Injection Moulding services, our speed and versatility lets you take your parts from the very early stages of prototyping all the way up to short-run production of 10,000+ parts — all with one technology-driven, quick-turn company.

The Role

We are seeking a Build Support Technician who will be responsible for disassembling and assembling injection mould tools. You will retrieve and store injection mould tools in the warehouse and work to an internal production schedule. Ideally you will have experience of working with hand tools, experience in working with metal, assembling parts or components and have experience or an interest in mechanical engineering. Ideally you will also have a Counter Balance FLT license taken or renewed in the last three years. You will be working two rotating shifts 6am to 2pm and 2pm to 10pm Monday to Friday.

The Candidate

The role will appeal to an individual capable of working in a fast paced environment. You will have the initiative to approach challenges with enthusiasm and the ability to react to rapid changes in prioritisation whilst maintaining a clear focus on the company objectives. Exceptional time management, communication skills and attention to detail are a must and you must be computer literate.

Benefits

- Company bonus scheme
- Company pension scheme
- Childcare vouchers
- Excellent working environment
- www.protolabs.co.uk
