Reporting to

Mould Shop Leader

The Company

At Proto Labs, we're not only one of the fastest growing manufacturing companies in the UK, we're also the fastest in the world at what we do — so being extraordinary is a way of life. If you are looking for an extraordinary career opportunity, you've come to the right place as we are looking for additional people to join our team. Proto Labs is the world's fastest source for custom prototype and low- to mid-volume parts. With our 3D printing, CNC machining and injection moulding services, our speed and versatility lets you take your parts from the very early stages of prototyping all the way up to short-run production of 10,000+ parts — all with one technology-driven, quick-turn company.

The Role

This is an exciting role where you will constantly trial new and unique tools with a vast array of commodity, engineering and high performance materials, to supply plastic parts to our varied customer base. You will have previously used, and have knowledge of, a broad range of thermo-plastic materials with a willingness to learn how to process the latest high spec plastic resins. You will also be capable of trouble shooting new and existing tooling to resolve in house and customer-related quality concerns.

We have two shifts available:

- Two Rotating shifts 6-2pm and 2-10pm Monday to Friday or
- Nights 9.30pm-6am on Sunday and 10pm-6am Monday to Thursday

The Candidate

The role will appeal to an individual capable of working in a fast paced environment with the willingness to learn new skills. The individual will have the initiative to approach challenges with enthusiasm and the ability to react to rapid changes in prioritisation whilst maintaining a clear focus on the company objectives. Exceptional time management, communication and problem solving skills are a must as is computer literacy.
